

Healthcare

Health Insurance for Foreign Students in Germany

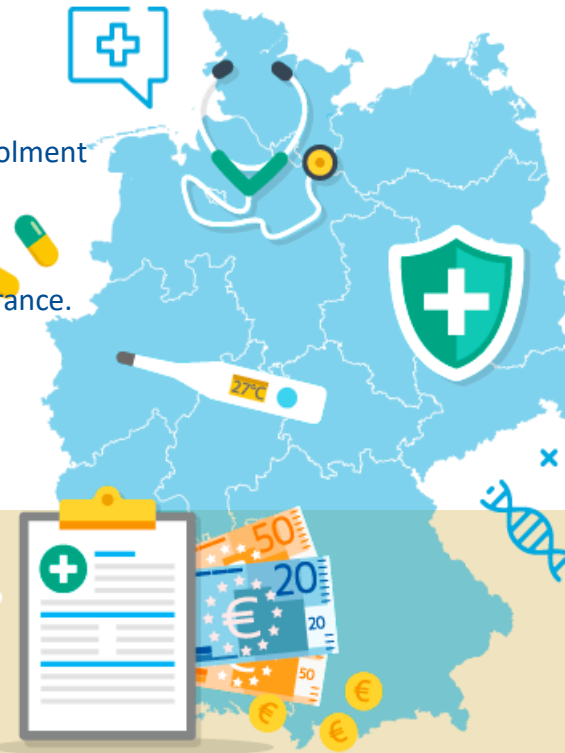

All students in Germany must have a health insurance coverage. Enrolment does not take place without a proof of health insurance coverage.

Since 2009, every person with a permanent place of residence in the Federal Republic of Germany has been obliged to have a health insurance. Health insurance is required even for short-term stays in Germany; otherwise no visa will be issued.

Health insurance companies near the UDE Campus in Duisburg:
